**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Claim Rejections - 35 USC § 103*

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 6 is rejected under 35 U.S.C. 103(a) as being unpatentable over Conzelman, Jr. et al US 2,656,545 in view of Haslam, II et al US Patent 5,413,611.

Conzelman, Jr. et al discloses a grip device (25), a plurality of digits (32), digit tip pads (see Fig. 1) with a pouch (155) connected to the end of each digit and a hydrostatic fluid filling the pouch (157). However, Conzelman, Jr. et al is silent regarding a drive linkage.

Conzelman, Jr. et al discloses, in col. 1, lines 42-55 and col. 2, lines 1-13, a prosthetic device capable of having a powerful grip when closing the artificial hand. Therefore, the prosthetic device has to have a drive linkage so it is capable of closing the digits. However, the Examiner is disclosing a reference in order to show that is well known in the art to use a drive linkage.

Haslam, II et al teaches a prosthetic device comprising a drive linkage (see Fig. 1) and having a plurality of strain sensors (35, 36 & 37) at the tip of each digit for the purpose of closing the hand and sensing the amount of stress in the fingers and thumb (see col. 7, lines 15-22).

It would have been obvious to one having ordinary skill in the art at the time the invention was made to modify the Conzelman, Jr. et al reference with the Haslam, Jr. et al reference in order to close the hand and sense the amount of stress in the digits.

***Response to Arguments***

Applicant's arguments filed April 20, 2005 have been fully considered but they are not persuasive.

In order to give patentable weight to the applicant's argument regarding the term "hydrostatic fluid means" the Applicant's representative has to positively claim the structure limitations disclosed in the remarks, showing that the fluid remains within an enclosed pouch.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
